

## OCLC FirstSearch Database Transition List

This table documents planned changes to FirstSearch database access. OCLC will continue to support access to these databases through the end of current subscriptions. We will provide updates about the timeline for these changes as new information becomes available.

Databases that will remain available on FirstSearch beyond June 30, 2011 are: WorldCat, Anthropological Index, Anthropological Literature, Anthropology Plus, ArchiveGrid, ArticleFirst, Avery Index to Architectural Periodicals, CAMIO, Chicano Database, Clase and Periódica, Electronic Books, Electronic Collections Online, ERIC, FRANCIS, GPO Monthly Catalog, Heritage of the Printed Book, History of Science, Technology and Medicine, Index to 19<sup>th</sup>-Century American Art Periodicals, MEDLINE, OAlster, PapersFirst, ProceedingsFirst, Russian Academy of Science Bibliographies, World Almanacs, WorldCat Dissertations and Theses.

**FirstSearch per-search access:** Libraries that have purchased blocks of searches can continue to use those searches for databases available on FirstSearch that allow per-search access. Dates for the end of per-search access vary by database. Databases that will continue to be available via per-search after June 30, 2011 are: Clase and Periódica, ERIC, GPO Monthly Catalog, MEDLINE, ArticleFirst, Electronic Books, Electronic Collections Online, PapersFirst, ProceedingsFirst, WorldCat and World Almanacs.

Database	Content Provider	End of FirstSearch access	End of per-search access	Transitions to WilsonWeb 6/30/2011	Transitioned to EBSCOhost
