

3rd Annual Symposium on Open Access

05.21.2012
University of North Texas Gateway Center
Denton, TX

This year's conference will bring together key stakeholders from industry, academic research, funding agencies, and publishing to explore the implications of emerging trends in research data access, preservation, and management.

The conference will include several panels of experts, each of which will offer a different perspective on data management within the Open Access movement.

Keynote Speaker

Dr. Myron Gutmann has been the Head of the Social, Behavioral, and Economic

Sciences Directorate of the National Science Foundation since 2009. One of his primary areas of study are digital materials and how they can be properly preserved and shared, as well as how the confidentiality of research subjects can be protected when data about them is made available for secondary use. Gutmann also specializes in historical demography and population-environment relationships with a focus on Europe and the Americas. He received his doctorate from Princeton University and has taught at both the University of Michigan and the University of Texas at Austin.

Early Registration

\$75 (last day, April 30th)

Regular Registration

\$100 (begins May 1st)

Student Registration

\$50

Conference registration includes meals and conference materials.
