Library, Information, and Product Information from Science Federal Agencies

Prepared by Emily C. Wild, U.S. Geological Survey Library: <http://Library.usgs.gov>

Science.gov: Science.gov searches over 55 databases and over 2100 selected websites from 15 federal agencies, offering 200 million pages of **authoritative U.S. government science information** including research and development results.

Data.gov: The purpose of Data.gov is to increase public access to high value, machine readable datasets generated by the Executive Branch of the Federal Government.

USA.gov: A-Z Index of U.S. Government Departments and Agencies:
